

Jason Brown

Farmer/ Carpenter/ Husband & Step-Father

Seymour, CT 06483

jbbemail34@gmail.com

203-733-4583

General home improvement contractor, having worked in various construction trades for over 25 years. Vegetable farm owner in the process of being certified organic by the USDA. Seeking to apply my hard work ethic, ability to learn quickly, professional attitude and passion for growing to your company in a mutually beneficial relationship for years to come.

Work Experience :

Brown's Blessed Farm LLC - Seymour, CT

Position - Owner

December 2022 to Present

Increased our family garden to produce abundance and start a farming business. To sell vegetables, mushrooms, herbs, flowers, fruits, crafts and fertilizers. As a supplemental source of income and happiness for our family.

Job Functions:

- Collecting data and creating database of information on farming practices, inputs and outputs.
- Collecting data for future projects, where we hope to expand.
- Growing organic in natural living soil utilizing organic amendments, worms and beneficial insects.
- Marketing, harvesting, selling, crop rotation, pest management, weeding, ordering and maintaining supplies, packaging, collecting data on grows, comparing data from prior seasons, disease, pest elimination and prevention
- Composting and maintaining a healthy compost pile, and worm bin.
- Built, run and harvest worm castings from my horizontal flow thru reactor.

- Built, run and harvest my own fertilizer and amendment tea brewer. Using vortex technology creating structured water and superior products from many of our own farm made products.

Coldwell Banker - Oxford, CT

Position – Licensed Realtor

January 2021 to May 2023

Built a database of customers (15,000+) and clients (500+), successfully building and maintaining client relationships, helping dozens of families towards their housing goals.

Job Functions:

- Made 20-30 cold calls every business day and handed out business cards to multiple people daily to build out a database, averaging 10 new contacts per week, converting into 3 new clients per week.
- Created an outstanding professional customer experience by keeping in consistent communication, discovering each individual client's needs, educating where needed, setting appointments to show houses, writing contracts, submitting offers and handing out referrals for services needed in a real estate transaction.
- Self-taught CRM software incorporating the information into automated drip mailers, physical and digital to keep in constant contact and stay front of mind.
- Built out several customer relations management databases, including names, birthdays, phone numbers, email addresses, line of work, current and future housing goals, and setting realistic expectations.
- Self taught designed and created blogging website using Wordpress.
